(4)Notes

<Significant accounting policies in preparing the consolidated financial statements>
Changes in accounting policy

(Application of Accounting Standards regarding Business Combinations)

As the "Revised Accounting Standard for Business Combinations" (ASBJ Statement No.21, September 13, 2013; hereinafter the "Business Combinations Accounting Standard"), "Revised Accounting Standard for Consolidated Financial Statements" (ASBJ Statement No.22, September 13, 2013; hereinafter the "Consolidation Accounting Standard"), "Revised Accounting Standard for Business Divestitures" (ASBJ Statement No.7, September 13, 2013; hereinafter the "Business Divestitures Accounting Standard") and other standards have been applied from the three months ended June 30, 2015. Accordingly, the accounting method has been changed that the difference associated with changes in equity in subsidiaries remaining under the control of the Company is recorded as capital surplus, and acquisition-related costs are recorded as expenses for the fiscal year in which the costs are incurred For business combinations implemented on or after the beginning of the three months ended June 30, 2015, the accounting method has been changed to reflect the adjustments to the allocated amount of acquisition costs on the finalization of provisional accounting treatment in the consolidated financial statements for the quarter containing the date of the business combinations.

In addition, the Company has changed the presentation of net income, etc. as well as the presentation of minority interests to non-controlling interests. To reflect these changes in presentation, the quarterly consolidated financial statements for the three months ended June 30, 2014 and consolidated financial statements for the fiscal year ended March 31, 2015 have been reclassified.

With respect to application of the Accounting Standards regarding Business Combinations, the transitional treatment as prescribed in article 58-2 (3) of the Business Combinations Accounting Standard, article 44-5 (3) of the Consolidation Accounting Standard and article 57-4 (3) of the Business Divestitures Accounting Standard was applied. The cumulative impact of the retroactive application of the new accounting policies over all past periods at the beginning of the three months ended June 30, 2015 was reflected in capital surplus and retained earnings.

As a result of this change, as of the beginning of the three months ended June 30, 2015, goodwill, capital surplus and retained earnings decreased by 3,135 million yen, 1,175 million yen and 1,220 million yen, respectively. Additionally operating income, ordinary income, and income before income taxes for the three months ended June 30, 2015 all increased by 48 million yen.

5. Segment Information

[Reportable Segments]

(1) The First Quarter of Fiscal Year Ended March 31, 2015

(Millions of yen)

		Reportable				
	Cardiac & Vascular Company	General Hospital Company	Blood Management Company	Subtotal	Adjustment	Total
Sales and operating income:
