| Other Income and Expenses | 1.6                        | 0.4                | -    | -             |
| Operating Profit          | 59.2 (19.2%)               | 41.8 (14.8%)       | -29% | -24%          |
| Adjusted Operating Profit | 67.0 (21.8%)               | 51.3 (18.1%)       | -24% | -19%          |
| Profit before Tax         | 58.1 (18.9%)               | 40.7 (14.4%)       | -30% |               |
| Profit for the Year       | 45.7 (14.9%)               | 31.8 (11.2%)       | -30% |               |
| Average Exchange Rate ——  | JSD 109 JPY<br>EUR 121 JPY | 107 JPY<br>121 JPY |      |               |

Revenue: Significant recovery in demand for Cardiac and Vascular. The COVID-19 negative impact on General Hospital as well as Blood and Cell Technologies has been continuously minor

Adjusted Operating Profit: Year-on-year negative growth due to the revenue decrease. SG&A and R&D Expenses were controlled based on priorities

Factored in the better 1H performance than expected

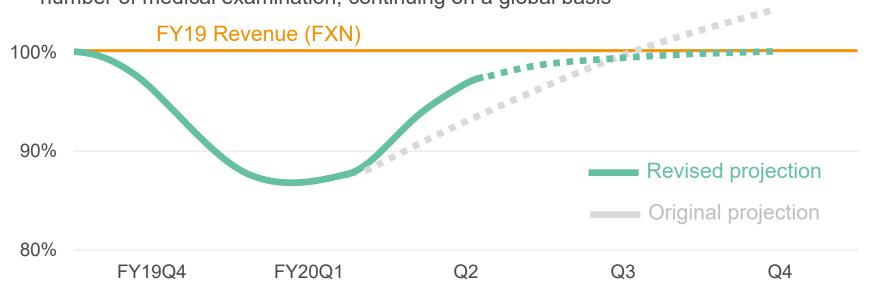

No revision for the FY20 annual dividend proposal disclosed at the financial announcement in May 2020

# **Key Assumptions of 2H FY20 Projection**

Recovery in the 2H revenue becomes slower than the original projection disclosed at the financial announcement in August 2020

Overall healthcare demand including new procedure pipeline is declined due to limited number of medical examination, continuing on a global basis

Adjust the operating level of production from Q3 onward to optimize inventory level, which was raised in Q1 for the purpose of BCP

While controlling SG&A Expenses to an extent, also plan to invest appropriately based on the business performance to achieve rapid recovery

Control R&D Expenses by prioritizing from the perspective of mid- to long-term growth
